Don't let fleas make Chiqui Riky, Donner and you miserable.

Dear Daniel Gallapoo,

This time of the year it's important to remember to protect Chiqui Riky and Donner from fleas. Just a few can create big problems. In addition to scratching and itching, fleas can cause flea allergy dermatitis (FAD) — the most common skin condition in dogs.

With that in mind, we'd like to tell you about Comfortis® (spinosad), the chewable tablet that kills fleas fast and keeps killing them for one full month. And Comfortis offers other benefits to you and your family:

- It's convenient — no need to isolate your dog from your family or other pets.
- It's effective — works all month long and won't wash off, so it's ideal for dogs that swim or are bathed frequently.

One
tablet
Once
a month

• It avoids mess — there are no topical applications so it won't rub off onto furniture, upholstery or clothing.

We're so sure Comfortis is the right flea control choice for Chiqui Riky and Donner, we're offering an incentive for you to give it a try. Bring in the attached check to save \$7.00 on a six-month supply of Comfortis chewable tablets.

To learn more about fleas and how Comfortis can help you protect Chiqui Riky and Donner from the problems they can cause, visit chiquirikyg186898.fleacontrolinfo.com.

Sincerely,

Your friends at Paddock Park Animal Care Center
352-237-4176

P.S. With Comfortis chewable tablets, it's easy to protect Chiqui Riky and Donner from fleas. Get started now and save \$7.00 with the attached check.

Important Safety Information

- The most common adverse reaction reported is vomiting.
- Other adverse reactions reported in decreasing order of frequency are: depression/lethargy, decreased appetite, incoordination, diarrhea, itching, trembling, excessive salivation and seizures.
- Following concomitant extra-label use of ivermectin with Comfortis, some dogs have experienced the following clinical signs: trembling/twitching, salivation/drooling, seizures, incoordination, excessive dilation of pupils, blindness and disorientation.
- Post-approval experience continues to support the safety of Comfortis when used concurrently with heartworm preventatives according to label directions.
- For product label, including complete safety information, see back.

The enclosed offer is being sent by Paddock Park Animal Care Center and is sponsored, in part, by Elanco Companion Animal Health.

Facts you should know about fleas

- Your pet can be exposed to fleas anywhere: your backyard, on walks, even in your home.
- One flea can produce up to 2,000 eggs in her lifetime.¹
- Fleas are the source of flea allergy dermatitis (FAD).
- Severe flea infestations can cause anemia. Plus, fleas can transmit tapeworm infection.
